OUR STORY

MIX Networks, Inc. is a full service provider of hosted communication services including Hosted PBX, UC, SIP Trunking, Phone Number Management, and more. MIX offers its suite of leading edge, high-value service and solutions to Business, Reseller, and Wholesale Customers.

MIX Networks is privately owned. Our sound, conservative business practices have allowed us to operate debt-free, while paving the way for self-determined, consistent growth.

Carrier Grade – Boutique Quality. MIX Networks stands apart from other telecom providers in our willingness to consult with customers to help define their communications needs. We then leverage the power of our network and the flexibility of our platform to craft custom solutions that fit our customers' unique needs. Perfectly.

OUR AFFILIATES

Quality Partners – Quality Experience. MIX Networks partners with Tier 1 Carriers like Level (3), Verizon and WindStream to ensure reliable and optimal call quality for our customers. We also employ best-in-class, well-vetted hardware options such as Polycom, Peplink, Edgewater, SimpleWan, Mediatrix, and Cisco to facilitate service delivery.
